

The Accu-Skive Precision Tube Wall Slitter is the safest manual tube slitter available today. The blade is fully guarded for safe operation while a digital micrometer precisely controls the depth of the slit, making the Wall Slitter the most accurate as well.

Features:

- Clean, square cuts
- One minute setup and changeover
- No tools to change
- Uses a standard, low cost, easy to change razor blade
- When digitally controlled, depth resolution is .001
- Proven on polyimide, Teflon, pebax, pellathane, and polyethylene
